

# GRANT SPS

You Invest. We Grant. Kids Thrive.

May - August, 2026

The Foundation's fall grant cycle is open and SPS educators have submitted record-breaking funding requests for the upcoming school year.

To meet their vision, **our goal is to raise \$300,000**, bridging the gap between district budgets and classroom dreams. Your support will provide resources to eliminate barriers to academic excellence.

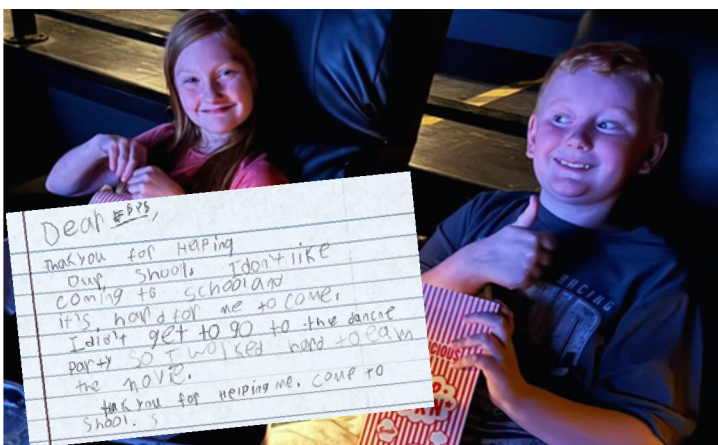

## Will you join us as a Grant SPS sponsor?

### Your Impact In Action

**Wanda Gray's "Nature School: Life Science in Library"** grant helped engage 500+ students with hands-on exhibits—from hatching chicks to decomposing pumpkins—bridging literature with life cycles.

The project boosted student curiosity, classroom engagement, and nonfiction book checkouts across all grades.

*"When we were watching the pumpkin decompose, it was gross but also cool,"* a 4th grader shared. *"It made me want to learn more about how stuff breaks down in nature. I even taught my little brother about it."*

**Sunshine's "Bright Futures"** grant successfully met its objectives to boost attendance and reduce behavioral issues.

**Student attendance at 90% or higher rose to 82.48%.** Average daily attendance increased to 92.58% and discipline referrals dropped to 17.36%, exceeding their goal.

By positively impacting students through the recognition of good attendance and behavior, teachers can motivate struggling students, and **foster stronger school-home relationships**, ultimately contributing to academic success.
